The data is out on the CV19 bioweapon vax, and it is crystal clear it did not help a single person. In fact, the CV19 vax is causing massive death and disability, and it will continue for years to come.

the injection. I said that immediately because I could see it coming. The goal of this thing was to get people injected. The other goal was to steal a huge amount of assets, which they did quite successfully.

"The reality is you can't navigate this unless you can face what it is. It's not a mistake, and it's not a betrayal. **Somebody is trying to kill you, and your job is to figure out how to make sure they don't.** You have to reorganize how you manage your time and how you manage your money where you have disaster capitalists coming at you and can make money from killing you."

You don't want to eat lab-grown meat. "Pharma Food" is one of the most frightening reports we have ever written. We don't like to scare people, but you need to see how much money is going into creating the capacity to feed you things in a million years you would not want to eat. This is serious. They are trying to build complete control of the food system. This includes delivering you food out of a manufacturing plant and not out of a farm."

CAF goes on to say "If we can sustain ourselves with barter,the financial transaction control won't work. That is why food is so critical. You have to control food because if you control food, you can get financial transaction control. . . . If you look at the venture capital investments, it is absolutely illogical for them to spend this kind of money for a consumer product nobody wants." CAF says what could happen is the demonic powers might mandate you eat their factory made "Pharma Food." This is why CAF is pushing everybody to get serious about growing and procuring real food without corporations and Big Pharma getting between you and your table.

CAF also talks about the Fed, Central Bank Digital Currency (CBDC), the Fed meeting in Jackson Hole, the razor-accurate destruction in Maui and how to fight back and stay alive in a world where people are dreaming up ways to kill you for cash.
